

Prostate Cancer Screening: “Unnecessary” or Life Saving?

Comparative Mortality Rates Suggest Benefits of Early Detection

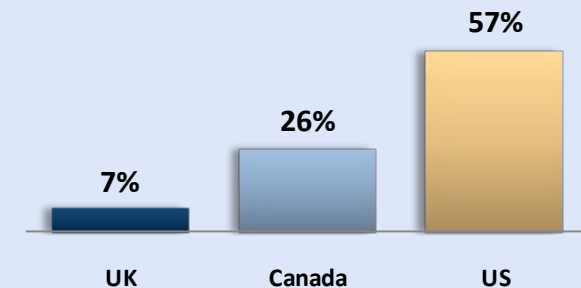

Prostate Cancer Mortality Rates*
Age-standardized, per 100,000 male population

PSA Testing**
Percent of men ever receiving a PSA test

Recent PSA Testing**
Percent of men receiving a PSA test within the last year, circa 2000

Source: Preston, Samuel H. and Jessica Y. Ho, "Low Life Expectancy in the United States: Is the Health Care System at Fault?" *PSC Working Paper Series, University of Pennsylvania, 2009.*
 *Based on World Health Organization data. **PSA testing data were the latest locatable by the study's authors. Age ranges used were not identical from country to country. Survey dates were country specific: Canada 2000-2001, France 2005, UK 1999-2001, and US 2001.
